

Evgenii Kuznetsov

Backend Software Engineer

HERE'S MY STORY

I'm from Cyprus.

With 6+ years of experience in software development, I work helping product teams to achieve their goals with management, methodology and creating the ideal conditions for productivity, not only looking for the next delivery but also for medium/long term goals.

Organized, positive even in challenging situations, analytical vision, results-oriented aligned with goals and higher purposes - what moves and motivates all involved.

Strong leadership and ethical conduct with everyone, without distinction.
B1 English level (intermediate)

WORK EXPERIENCE

Software Architect Backend

MARFATECH - DIGITAL MARKETING, DATA SCIENCE, BI ANALYTICS
